Professional Summary

Full-stack developer with a Bachelor's degree in Computer Science & IT from Tribhuvan University and hands-on experience shipping production web applications across the stack. Currently building a multi-tenant retail platform on React, .NET, and SQL Server, alongside CMS-driven web projects. Comfortable moving between frontend interfaces and backend services, with a solid grounding in database design, API development, and collaborative, Git-based workflows.

Technical Skills

Languages: HTML5, CSS3, JavaScript (ES6+), C, C++, Java (fundamentals)

Backend: .NET 8, Node.js, PHP, RESTful APIs

Frontend: React.js, Tailwind CSS

Databases: SQL Server, MySQL, Database Management Systems (DBMS)

Tools & Workflow: Git, GitHub, VS Code, XAMPP, Jira, Prismic CMS

Professional Experience

Developer — Danfe Solutions

Apr 2026 – Present

Kathmandu, Nepal

- Building and maintaining Kajal Naina, a multi-tenant retail inventory and POS platform (React, .NET, SQL Server) used across multiple client outlets.
- Developed and maintain several CMS-based web projects, including The Himalayan Matrix and the company's internal corporate CMS application.
- Designed and built danfesolution.com, the company's marketing website, using React and Tailwind CSS.
- Created Sachcho (sachcho.com), a CMS-driven web application using React and Prismic to manage dynamic articles and site-wide content.

Web Development Intern — Nepal Telecom (NTC)

Nov 2025 – Mar 2026

Jawalakhel Office, Kathmandu, Nepal

- Contributed to the frontend of NTC's internal Duty Chart Management System, building the duty chart dashboard with React.
- Implemented role-based access control and task management features for tracking employee duties across office departments.
- Gained hands-on experience with enterprise development workflows, code reviews, and version control practices.

IT Consultant — High Destinations Education Consultancy

Jan 2025 – Mar 2025

Kathmandu, Nepal

- Provided IT consultancy support and created digital content assets for a study-abroad consultancy.
- Helped strengthen the organisation's online presence through digital materials and web-related advisory.

Projects

Kajal Naina – Multi-Tenant Retail ERP

2026 – Present

React, .NET, SQL Server

- Developed Kajal Naina, a multi-outlet retail ERP featuring FIFO inventory management, double-entry accounting with automated voucher workflows, and POS integration using .NET and SQL Server.
- Built multi-tenant architecture supporting stock tracking, purchasing, and sales across multiple outlets from a single, unified system.

Venue Booking Platform

React, .NET

- Developed a marketplace for venue discovery and booking with advanced search filters and dynamic package customisation.
- Delivered a comprehensive admin portal enabling providers to manage inventory, track bookings, process payments, and view business analytics.

Duty Chart Website

React, Node.js, MySQL

- Built an employee duty management system with role-based access control and task assignment for office environments.

Sachcho – CMS Web App — sachcho.com

React, Prismic CMS

- Created a content-managed web application using React and Prismic for dynamic article and page management, with a fully editable front end for non-technical staff.

Danfe Solutions – Company Website — danfesolution.com

React, Tailwind CSS

- Designed and built the company's public marketing site, from layout and component structure to responsive styling.

Education

B.Sc. in Computer Science & Information Technology (B.Sc.CSIT) 2021 – 2026

Asian School of Management and Technology – Tribhuvan University, Kathmandu, Nepal

10+2 – Science (NEB)

2019 – 2021

Southwestern State College, Kathmandu, Nepal

GPA: 3.43 / 4.00

Achievements & Activities

- Organised the annual sports program at Asian School of Management and Technology, including e-sports and indoor games events.
- Volunteered at the Asian Hackathon organised by Asian School of Management and Technology, supporting event operations and participant coordination.
