PROFESSIONAL SUMMARY

Frontend-focused developer with a Bachelor's in Computer Science & IT at Tribhuvan University, with hands-on internship experience building production-grade AI powered web applications. Competent in React, Node.js, and other language/tools, with a solid grounding in software engineering principles, database design, and collaborative development workflows. Proven ability to deliver functional, user-facing features in professional team environments. Seeking a full-time junior developer or entry-level software engineering role where I can contribute immediately and grow.

WORK EXPERIENCE

Danfe Solutions

Developer Intern

Apr 2026 – Jun 2026

Kathmandu, Nepal

- Developed and maintained multiple CMS-based web projects including Himalayan Matrix and the company's corporate CMS app.
- Built a modern, responsive marketing site for Danfe Solutions using React and Tailwind CSS.
- Created Sachcho (sachcho.com) — a CMS-driven web app using React and Prismic, managing dynamic articles and all site pages.
- Worked within an agile team environment, gaining proficiency in professional development practices, code review, and version control with Git.

Nepal Telecom (NTC) — Jawalakhel Office

Web Development Intern

Nov 2025 – Mar 2026

Kathmandu, Nepal

- Contributed to the frontend of NTC's internal Duty Chart Management System, building the duty chart dashboard with React.
- Implemented role-based access control and task management features for tracking employee duties across office departments.
- Acquired hands-on experience with standard enterprise development workflows, code reviews, and version control practices.

- Provided IT consultancy support and created digital content assets for a study-abroad consultancy.
- Assisted in improving the organisation's online presence through digital materials and web-related advisory.

KEY PROJECTS

Fleet Management System · [React](#) · [Node.js](#) · [MySQL](#)

- Designed and built a full-stack fleet management solution featuring vehicle tracking, maintenance scheduling, and operational analytics.
- Implemented a fuel prediction algorithm and expense management module with real-time reporting dashboards.
- Applied a Round Robin algorithm for automated staff and vehicle scheduling, improving operational efficiency.

Venue Booking Platform · [React](#) · [.NET](#)

- Developed a marketplace for venue discovery and booking with advanced search filters and dynamic package customisation.
- Delivered a comprehensive admin portal enabling providers to manage inventory, track bookings, process payments, and view business analytics.
- Integrated secure advance payment functionality with detailed reporting for venue administrators.

Duty Chart Website · [React](#) · [Node.js](#) · [MySQL](#)

- Built an employee duty management system with role-based access control and task assignment features for office environments.
- Enabled managers to schedule, track, and update employee duties with an intuitive dashboard interface.

Sachcho — CMS Web App · [React](#) · [Prismic CMS](#)

- Created sachcho.com, a modern content-managed web application using React and Prismic for dynamic article and page management.
 - Delivered a fully editable front-end experience, allowing non-technical editors to update site content independently.
-

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS
Backend	Node.js, PHP, .NET (basic)
Databases	MySQL, Database Management Systems (DBMS)
Programming	C, C++, Java (fundamental)
Tools	Git, GitHub, VS Code, XAMPP, Jira, Prismic CMS
Soft Skills	Problem-solving, Analytical thinking, Communication, Teamwork, Attention to detail

EDUCATION

Bachelor in Computer Science & Information Technology (B.Sc.CSIT)

Asian School of Management and Technology — Tribhuvan University

Relevant coursework: Web Development, Algorithms, DBMS, Software Engineering, Networking, OOP

2021 – 2026

Kathmandu, Nepal

10+2 — Science (NEB)

Southwestern State College — National Examination Board

GPA: 3.43 / 4.00

2019 – 2021

Kathmandu, Nepal

ACTIVITIES & VOLUNTEERING

Organised the annual sports program at Asian School of Management and Technology, including e-sports and indoor games events.

Volunteered at the Asian Hackathon organized by Asian School of Management and Technology — supporting event operations and participant coordination.

LANGUAGES

Nepali — Native

English — Fluent (oral & written)

INTERESTS

Hiking & outdoor adventure

Exploring emerging technologies

Reading

I declare that the information above is accurate and true to the best of my knowledge.
